Master Title - Long	AprilAire 45 Replacement Water Panel for AprilAire Whole-House Humidifier Models 400, 400A, 400M (Pack of 2)
Master Bullets - Trade	This genuine replacement water panel was designed and manufactured in the USA by AprilAire the leader in indoor air quality solutions Optimize the performance of your AprilAire Humidifier Models: 400, 400A, and 400M Designed to evaporate as much water as possible throughout the humidifier to maintain proper humidity throughout the home. You'll feel more comfortable while also preserving items in your home susceptible to damage from changing humidity or dry conditions For optimal performance replace water panel twice per heating season Two water panels per package
Master Long Description - Trade	The heavy-duty paper panel is reinforced with 2 layers of aluminum and coated with an anti-microbial agent to prevent the growth of biologicals. The panel absorbs water and maintains the proper level of hydration to support the evaporation process. Water is vaporized as air warmed by the furnace passes over the water panel. The humidified air is carried through the house through the air ducts. AprilAire has been there since the beginning by introducing the first whole-home humidifier in 1954. Since then, we've continued to focus on quality design, engineering, and manufacturing to deliver Healthy Humidity to every home. Healthy Humidity reduces the incidence and risk of respiratory infections from airborne viruses. It also helps remedy your dry skin, chronic sore throat, frequent nosebleeds, and static shock. Additionally, proper humidity levels protect your home's wood furnishings from cracking or splitting while lowering your energy bill. Keep your AprilAire Humidifier running at peak performance by replacing your water panel. Maintaining proper humidity levels is integral to maintaining Healthy Air.
