Master Long Description - Trade	An industry leader, the Model 5000 Electronic Air Cleaner is our most efficient model. Uses a combination of electrostatic technology and traditional air filter. The Model 5000 requires maintenance just once a year. Features patented, breakthrough “electrically enhanced air filtration” technology that provides a unique combination of both electronic and media air cleaner qualities. It permanently traps even the smallest particles so they cannot re-enter the air stream. Uses AprilAire Model 501 replacement air filter media. Up to 2000 CFM airflow capacity. When used properly with the Model 5000 Air Cleaner, the Model 501 MERV 10 Air Filter Media performs equivalent to MERV 15 when performance tested to AHRI 680 Standard. Removal efficiency: 89% 0.3-1 micron, 95% 1-3 microns, and 98% 3-10 microns. * Contaminants removed based on air passing through the filtering system.
