Master Long Description - Trade	<p>One of the largest issues confronted by homeowners is uneven temperatures throughout the house. Zoning is the solution. A well-designed zoning system will provide reliable operation and years of optimal comfort and energy efficiency for your customers. Any type of home, any type of climate. AprilAire Zone Control offers a complete line of zone panels, dampers, and controls to provide the exact solution for any application. A switch to AprilAire is easy and our zoning solutions work with all major industry thermostats. Many helpful and convenient features, such as: Visual indicators and clear terminal designations allow installers to easily understand how to wire and set up the system with minimal training. Robust mounting plate can be installed easily on stud wall or flat surface (including return plenum). Cover snaps on/off, providing access without exposing PCB. Zone Weighting allows more control when staging based on the number of zones calling. Each zone can be assigned a weight. For example, a zone can be weighted to count as 2 zones when deciding to stage up. Our line of zone panels has been designed to stand up to the harshest conditions that exist in the most demanding climates. We are inspired by the needs of consumers and the expertise of professional contractors to create, design, and build innovative solutions.</p>
