

LEAK SEALANT, 0.3 FL OZ SINGLE USE HOSE

Item#: 985

LeakArmor™ Flex Shot™ hoses and inject adapters are the fastest, most effective proven way to permanently seal and prevent minor air conditioning and refrigeration (AC/R) leaks. With no tools or gauges required, the Flex Shot sealant works by traveling through the system in the gas phase with the oil and refrigerant fixing leaks immediately. Flex Shot works with all compressors, heat pumps, condensers, and other system components with 1/4" SAE high- and low-side service ports. It will not plug up manifold gauges, metering devices, thermostatic expansion valves (TXVs), pistons or cause cap tube blockages. It meets the ASHRAE ARI 700 refrigerant standard and is compatible with any refrigerant including R-410A with no pump downs or recoveries required. Flex Shot is suitable for use in aluminum and copper coils and is microchannel friendly. 0.3 oz single use hose.

Product Features & Benefits

- Leak Sealant and Moisture Eliminator in one
- Save time and money with one simple application
- Compatible with units up to 12 tons
- Compatible with units up to 12 Tons

Specifications ▲

Includes	Moisture Remover N/A Single-Use Hose
Container Type	Single-Use Injectable Hose
Application Rate	1 Hose
Ducted or Ductless	Ducted
Equipment Size (Tons)	Up to 12
Suitable For	All Refrigerants and Oils

Order Info ▲

UPC	0062774009856
