

SAFETY OVERFLOW CONDENSATE FLOAT SWITCH

Item#: CC-1

The Asurity® CC-1 Safety Overflow Pan Switch is a unique clamp-on float switch intended for HVAC drain pan installation (both plastic and metal pans). Large over-clamping area fits easily over the edge of all types of drain pans; separate float/probe assembly accommodates drain pans with sloped sides. Magnetically actuated switch opens when rising water presents a potential flooding condition.

Product Features & Benefits

- Position anywhere along secondary drain pan
- Adjustable activation height - minimum 1.5"
- Sensor assembly swivels to accommodate drain pans with sloped sides
- Clamps easily over the edge of all drain pan types, including formed plastic and galvanized sheet metal

Specifications

▲

Includes	N/A
Product Type	Pan-Mounted
Application	Drain Pan Flood Prevention Switch
UL Listed	Yes
Alert Indicator	None
Electrical Classification	Class 2
Electrical Connection Type	2-Wire
Plenum Rated	No
Rated Current (A)	1.5
Rated Voltage	24VAC
Switch Mode	Normally closed (N/C)
Test Switch / Button	No
Ducted or Ductless	Ducted
Color Code	N/A
Switch Type	SPST

Order Info
