

HEAT PUMP RISER, 12IN.

Item#: **HPR-12**

HPR-12 is a one piece 12 in. gray heat pump riser that provides an additional 12 in. of elevation under heat pumps, air handlers, or other equipment. Heat pump risers are most commonly used to lift heat pumps above the snow line. This helps prevent damage to the coils caused by ice build up from drainage of condensate when operating in heat pump mode. Heat pump risers are available in 1 or 2 piece designs, multiple sizes and colors.

Product Features & Benefits

- Provides the desired elevation for condensers, heat pumps, and air handlers
- Cost effective single piece design
- Single piece heat pump risers are available in 3 in., 6 in., and 12 in. heights
- Butyl mastic on the top and bottom guarantees no slipping and reduced vibration and noise

- Sturdy design, four risers can handle up to 2,000 lb. uniform load
- Environmentally friendly, molded from recycled polypropylene material
- Unaffected by UV exposure or extreme weather
- Can be used indoors or outdoors
- Made in the USA

Specifications ▲

Color	Gray
Application	Heat Pump
	Air Handler Support
Load Capacity	500 lbs.
Size	12 in.
Mounting Method	Butyl Mastic
Ducted or Ductless	Ducted

Order Info ▲

UPC	0095247412976
Primary UoM	Each
Primary Depth (inches)	6
Primary Width (inches)	6
Primary Height (inches)	12
Primary Weight (lbs)	1
Quick Ship Flag	No
Order Multiple	16
