

TWO PIECE HEAT PUMP RISER, 6IN.

Item#: **HPR-6-2P**

HPR-6-2P is a two piece 6 in. gray heat pump riser that provides 6 in. of elevation for condensers, heat pumps, and air handlers. Heat pump risers are most commonly used to lift heat pumps above the snow line. This helps prevent damage to the coils caused by ice build up from drainage of condensate when operating in heat pump mode. Heat pump risers are available in 1 or 2 piece designs, multiple sizes and colors.

Product Features & Benefits ▲

- Provides the desired elevation for condensers, heat pumps, and air handlers
- Two piece heat pump risers are available in 3 in. and 6 in. HPR-EXT 4 in. extension can also be added to either size
- Available in gray and black

- Butyl mastic on the top and bottom guarantees no slipping and reduced vibration and noise
- Sturdy design, four risers can handle up to 2,000 lb. uniform load
- Environmentally friendly, molded from recycled polypropylene material
- Unaffected by UV exposure or extreme weather
- Can be used indoors or outdoors
- Made in the USA

Specifications ▲

Color	Gray
Application	Heat Pump Air Handler Support
Load Capacity	500 lbs.
Size	6 in.
Mounting Method	Butyl Mastic
Ducted or Ductless	Ducted

Order Info ▲

UPC	0095247084128
Primary UoM	Each
Primary Depth (inches)	6
