

RUBBER ANTI-VIBRATION PAD, 2IN. X 2IN. X 3/8IN.

Item#: **MP-2**

The DiversiTech® MP-2 is a 2 in. x 2 in. x 3/8 in. rubber anti-vibration pad designed to reduce vibration and noise emanating from refrigeration and air conditioning equipment. The rubber pad is corrugated on both sides to reduce vibration and noise as well as "walking" or "creep" associated with vibration. These pads are designed to withstand 50 psi.

Product Features & Benefits

- The rubber pads are corrugated on both sides to reduce vibration and noise
- The top and bottom ribs are 90 degrees opposed to one another providing a natural resistance to "creep" or "walking" associated with vibrations
- Ideal for air conditioners, refrigeration equipment, compressors, cooling towers, presses, machines or anywhere vibration control is needed.
- Designed to withstand loads of 50 psi
- Can be used indoors or outdoors
- Pads can be stacked using interlocking ribs if additional vibration absorption or height is desired
- Other size options available from 2 in. x 2 in. to 18 in. x 18 in.
