

S87D

Source column: Item Number

Attribute	Value
Brand	Resideo
Product Taxonomy Node	RMH Root.Controls.Burner & Ignition Controls
Pro Product Short Description	The S87D is a low voltage, solid state, direct spark ignition control module for gas-fired furnaces, boilers and heating appliances. Models are available with or without a prepurge timer. The S87 controls the gas valve, monitors the main burner flame and generates a high voltage for spark ignition.
Pro Product Detail Page Title	S87D Direct Spark Ignition Control Module
Pro Product Breadcrumb Name	S87D Direct Spark Ignition Control Module
LOB	RTS
Ignition Source	Internal high voltage spark generator
Ignition Sequence	Lockout
Flame Sense	Two Rod
Flame Failure Response Time	0.8 sec. @ 5.0 microamp
Ignition Between Trail Time	Lockout
Works With Resideo App	No
Compatible Third Party App	No
