Attribute	Value
Brand	Honeywell Home
Product Taxonomy Node	RMH Root.Valves.Hydronic Valves.Zone Valves
Warranty	1 Year
Pro Product Short Description	<p><p>Supply Water Control</p> <p>These Honeywell Home V8043 Low Voltage Normally Closed Zone Valves from Resideo provide two-position, straight-through control of supply water at up to 300 psi operating pressure. They consist of a motorized actuator and valve assembly to control the flow of hot water to a heat exchanger. All models may be installed without disassembling the valve.</p></p>
Pro Product Detail Page Title	Low Voltage Normally Closed Zone Valves
Pro Product Breadcrumb Name	Low Voltage Normally Closed Zone Valves
LOB	Water
Compatible With	Heating and cooling systems
Operating Relative Humidity (Max)	95% non-condensing
Operating Relative Humidity (Min)	5% non-condensing
Power Loss Action	Valve Closed
Valve Ball Material	Buna-N (NBR) Rubber
Works With Resideo App	No
Compatible Third Party App	No
