Manufacturer_Brand_Name	REZNOR
Product_Name	UDXC 175MBH NG Unit Heater, Single Stage, Aluminized Heat Exchanger
Short description	Power Vented, Low Static Axial Fan Commercial/Industrial Unit Heater 82%-83% Thermal Efficiency
Long_Description	<p>The Reznor UDXC series of gas-fired unit heaters are designed for reliability, easy installation, and speedy service. UDXC unit heaters range in input heating capacity between 30,000 and 400,000 Btu/h in 14 sizes. UDXC unit heaters provide reliable heat to residential garages and workshops, commercial, and industrial spaces. UDXC unit heaters can use natural gas or liquid propane (LP) gas that can be single stage or 2-stage to match heating demand. The UDXC uses quiet axial fans to move heat throughout the space and the fan can be operated separately from the heating enabling superior comfort within the heated space. Reliability enhancements such as stainless steel heat exchangers can extend the life of the unit well beyond the industrial leading 10 year warranty offered. The UDXC offers optimal product selection with upgraded features to enhance reliability or space comfort performance .</p>
Model Description	UDXC175
Fuel Type	Natural Gas
Stages	1
Heat Exchanger Material	Titanium-stabilized aluminized steel
Motor Type	Open drip-proof motor
Invoice_Description	UDXC175,AA1,AG1,AC1,AK1,AZ0,AL1
Main_Category	Unit Heater
Sub_Category1	Gas-fired
Sub_Category2	82+% Efficient
UPC	663132524891
Prop_65	WARNING: This product can expose you to chemicals known to the State of California to cause cancer, and DIDP, which is known to the State of California to cause birth defects or other reproductive harm.
